Australasia has one of the most damaging sunlight conditions in the world and this is the cause of premature fading and product damage. All Soft Furnishings can be damaged by our harsh sunlight if they are exposed to either direct or reflective UV light for an extended period of time. Soft Furnishings must be adequately protected from direct or reflective sunlight or damage will occur. Charles Parsons strongly recommend the use of Sun Screens or other sun protective treatments to reduce the damage caused by direct sunlight.

SunSmart: Protect soft furnishing from direct Sunlight.
Refer to Terms and Conditions for more information.

*Sample colour may vary.
If required, request a cutting to review exact match.
